

Summary of Stock Status Determination Changes – Update through June 30, 2006

Overview of overfishing status of FSSI stocks through June 30, 2006

- 175 stocks or stock complexes are known with respect to their overfishing status. Of these:
 - 130 stocks or stock complexes are not subject to overfishing.
 - 45 stocks or stock complexes have a fishing mortality rate that exceeds the overfishing threshold (i.e., is subject to overfishing).
- 55 stocks or stock complexes have overfishing thresholds not defined or applicable, or are unknown with respect to their overfishing status.

Changes in overfishing status and/or score of FSSI stocks

- In the Southwest Region –
 - *Yellowfin Tuna – Eastern Pacific* is now undergoing overfishing – score remained at 3 (see overfished changes).
- In the Northwest Region –
 - *Darkblotched Rockfish* is now subject to overfishing – score decreased from 2 to 1.
- There are no changes to the other regions.

Overview of overfished status of FSSI stocks through June 30, 2006

- 159 stocks or stock complexes are known with respect to their overfished status. Of these:
 - 115 stocks or stock complexes are not overfished.
 - 44 stocks or stock complexes are overfished.
- 71 stocks or stock complexes have overfished thresholds not defined or applicable, or are unknown with respect to their overfished status.

Changes in overfished status and/or score of FSSI stocks

- In the Southwest Region –
 - The biomass of *Yellowfin tuna – Eastern Pacific* is now at or above 80% of maximum sustainable yield – score remained at 3 (see overfishing changes).
- There are no changes to the other regions.

Overview of overfishing status of non-FSSI stocks through June 30, 2006

- 63 stocks or stock complexes are known with respect to their overfishing status. Of these:
 - 61 stocks or stock complexes are not subject to overfishing.
 - 2 stocks have a fishing mortality rate that exceeds the overfishing threshold (i.e., is subject to overfishing).
- 237 stocks or stock complexes have overfishing thresholds not defined or applicable, or are unknown with respect to their overfishing status.

Changes in overfishing status of non-FSSI stocks

- There are no changes to any of the regions.

Overview of overfished status of non-FSSI stocks through June 30, 2006

- 24 stocks or stock complexes are known with respect to their overfished status. Of these:
 - 23 stocks or stock complexes are not overfished.
 - 1 stock is overfished.
- 276 stocks or stock complexes have overfishing thresholds not defined or applicable, or are unknown with respect to their overfished status.

Changes in overfished status of non-FSSI stocks

- There are no changes to any of the regions.
